PROFESSIONAL SUMMARY

Results-driven **Software Engineer** with 4+ years of experience designing, developing, and scaling full-stack web applications and microservices. Proven expertise in cloud-native architecture, API design, and performance optimization. Passionate about writing clean, maintainable code and collaborating in agile, fast-paced environments.

TECHNICAL SKILLS

Languages:	Python, JavaScript (TypeScript), Java, SQL, HTML5/CSS3
Frameworks:	React.js, Node.js (Express), Django, Spring Boot, Tailwind CSS
Databases:	PostgreSQL, MongoDB, Redis
DevOps & Cloud:	AWS (EC2, S3, Lambda), Docker, Kubernetes, CI/CD (GitHub Actions)
Tools & Practices:	Git, JIRA, RESTful APIs, GraphQL, Microservices, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer | Apex Tech Solutions

June 2024 – Present | San Francisco, CA

- Architected and maintained scalable microservices using **Node.js** and **PostgreSQL**, improving API response time by **25%**.
- Spearheaded transition from monolithic architecture to cloud-native services on **AWS**, reducing infrastructure costs by **18%**.
- Collaborated with cross-functional teams to design and implement frontend features in **React** and **TypeScript** for 100,000+ monthly users.
- Integrated automated testing pipelines with **Jest** and **GitHub Actions**, increasing code coverage from 60% to 88%.

Junior Full-Stack Developer | ByteWave Labs

July 2022 – May 2024 | Austin, TX

- Built and deployed responsive web interfaces using **React.js** and **Tailwind CSS**.
- Developed **Python (Django)** backend endpoints to streamline user authentication and payment processing via Stripe API.
- Optimized database queries in **MongoDB**, reducing search query latency by **35%**.
- Participated in daily stand-ups, code reviews, and bi-weekly sprint planning meetings in an Agile framework.

KEY PROJECTS

Cloud Task Manager (React, Node.js, Redis, Docker, AWS)

- Built a real-time collaborative task management app featuring websockets for instant synchronization across clients. Containerized with Docker and deployed on AWS ECS with auto-scaling.

DevMetrics Dashboard (Python, FastAPI, PostgreSQL, Chart.js)

- Developed a developer productivity analytics platform aggregating GitHub commit history and pull request metrics.

EDUCATION

B.S. in Computer Science

University of California, Berkeley
Graduated May 2022

CERTIFICATIONS

AWS Certified Developer – Associate

Amazon Web Services (2023)

Meta Front-End Developer Professional

Meta (2022)
